

MADE OF MONEY

Session 1: Exploring Money With Your Children

Pets can talk questions

Imagine your pet having the ability to talk and is able to follow you everywhere you went. Bearing this in mind, go through the questions below discussing what your pet would learn:

- What would your pet learn about money from watching you?
- Where would they see you use money?
- Would they see cash? Cards? What would they think about debit/credit cards?
- What would a trip to the supermarket look like to them?
- What would they make of money machines (ATM's)? Cash back?
- What would they see when they watch TV or open a magazine?
- What would online banking or shopping look like? Paying bills?
- Would money make sense? What would confuse them?
- What would they do / think about money if they tried to copy us? Would they save it? Spend it?
