

Session Evaluation

Session Title			
Date of Session		Session Length	
How many participants attended?			
What went well with the activities run during the session?			
What would you change about the activities (was there anything the group did not enjoy? Or that you felt didn't really work as expected?)			
Was there anything you missed out or did differently from the standard course layout? Why?			
Were there any user comments or staff observations that would be useful to record?			
Is there anything that you need to follow up on or further information that was requested?			
Were there any problems with the room or facilities?			
Do you have any concerns or queries about the next session?			
Any other comments/ Ideas generated from this session?
